Celebrate the freedom to read with this timely, empowering middle-grade debut in

the spirit of *The View* from Saturday or Frindle. June Harper is a good kid. She follows the rules, plays flute in band, and spends her spare time reading. Nobody would ever call her a rebel . . . until her parents take strict parenting to a whole

new level. It starts with one book deemed "inappropriate" by June's parents. What follows is a massive book ban at Dogwood Middle School, and suddenly everything June loves--the librarian, books, an author visit--is gone. All seems hopeless. Then June discovers a Little Free Library on her walk to school. When her classmates realize she has access to contraband, she (secretly) becomes the most popular girl in school. A risky reading movement begins at Dogwood, which could destroy June--or gain enough power to protect the one thing she cares most about: the freedom to read! Equal parts fun and empowering, this novel explores censorship, freedom of speech, and activism. For any kid who doesn't believe one person can effect change . . . and for all the kids who already know they can! "[A] funny and fast read." --School Library Journal

The Map Trap Simon and Schuster

This is war. Okay--that's too dramatic. But no matter what this is called, so far I'm winning. And it feels wonderful. Grace and Ellie have been best friends since second grade. Ellie's always right in the center of everything--and Grace is usually happy to be Ellie's sidekick. But what happens when everything changes? This time it's Grace who suddenly has everyone's attention when she accidentally starts a new fad at

school. It's a fad that has first her class, then her grade, and then the entire school collecting and trading and even fighting over . . . buttons?! A fad that might also get her in major trouble and could even be the end of Grace and Ellie's friendship. Because Ellie's not used to being one-upped by anybody. There's only one thing for Grace to do. With the help of Hank--the biggest button collector in the sixth grade--she will have to figure out a way to end the fad once and for all. But once a fad starts, can it be stopped? Andrew Clements, the beloved author of Frindle, returns with a deliciously entertaining and deeply satisfying story that will resonate with anyone who's ever been in a classroom . . . or been a kid. A fad is a tough thing to kill, but then again, so is a friendship. Praise for Andrew Clements! "Clements is a genius." --The New York Times "We have never read an Andrew Clements book that we haven't loved." --The Washington Post

NEW STUDENT GETS OLD TEACHER The bad news is that Cara Landry is the new kid at Denton Elementary School. Phil is on a mission. His absentminded little brother forgot his lunch money. All kinds of thoughts are running through Phil's mind as he searches for Jimmy in the throngs of fourth and fifth graders crowding the school hallway:...if I'm late for math today, then I might not be allowed to take the test -- and then I could flunk math! I might even flunk sixth grade and get left back! Then Phil spots Jimmy's

one-of-a-kind jacket and rushes to the corner of the hallway. Except the person wearing it isn't his brother; it's some black kid Phil's never seen before -- wearing Jimmy's jacket! Phil makes an accusation, tempers flare, and both kids wind up in the principal's office. How will Phil react when he finds out how Daniel came to be the owner of this unique jacket? Will Daniel be able to forgive Phil for an accusation that was based on racial prejudice? What will each boy learn about the other, and most important, about himself?

The first in a six-book series, *We the Children* follows Ben, his tech-savvy friend, Jill, and the class know-it-all, Robert, as they uncover a remarkable history and use it to protect the school. Sixth grader Benjamin Pratt loves history, which makes going to the historic Duncan Oakes School a pretty cool thing. But a wave of commercialization is hitting the area and his beloved school is slated to be torn down to make room for an entertainment park. This would be most kids' dream—except there's more to the developers than meets the eye... and more to the school. Because weeks before the wrecking ball is due to strike, Ben finds an old leather pouch that contains a parchment scroll with a note three students wrote in 1791. The students call themselves the Keepers of the School, and it turns out they're not the only secret group to have existed at Duncan Oakes.

The Losers Club Simon and Schuster Ted Hammond learns that in a very small town, there's no such thing as an isolated

event. And the solution of one mystery is often the beginning of another. Ted Hammond loves a good mystery, and in the spring of his fifth-grade year, he's working on a big one. How can his school in the little town of Plattsford stay open next year if there are going to be only five students? Out here on the Great Plains in western Nebraska, everyone understands that if you lose the school, you lose the town. But the mystery that has Ted's full attention at the moment is about that face, the face he sees in the upper window of the Andersons' house as he rides past on his paper route. The Andersons moved away two years ago, and their old farmhouse is empty, boarded up tight. At least it's supposed to be. A shrinking school in a dying town. A face in the window of an empty house. At first these facts don't seem to be related. But...

Jake Drake, Class Clown Simon and Schuster

Jake recounts his second grade introduction to Link Baxter, SuperBully, who becomes his class project partner, with surprising results. When Jake was three years old at Miss Lulu's Dainty Diaper Day Care Center, what did he know about bullies? Nothing. But he learned fast! Why? Because Jake was kind of smart and not a tattletale, and he had no big brother to protect him. He was a perfect bully magnet. But everything changed the year Jake was in second grade. That's when SuperBully Link Baxter moved to town. Jake had his hands full just trying to survive, until class project time. Who did the teacher assign to be Link's partner? You guessed it. Jake has to use all his smarts -- and his heart as well -- to turn himself from Jake Drake, Bully Magnet, to

Jake Drake, Bully Buster.

Room One Random House Books for Young Readers

This map-tastic middle grade story from Andrew Clements gives the phrase “uncharted territory” a whole new meaning! Alton Barnes loves maps. He’s loved them ever since he was little, and not just for the geography. Because maps contain more information than just locations, and that’s why he likes to draw them as well as read them. Regular “point A to point B” ones, sure, but also maps that explain a whole lot more—like what he really thinks about his friends. And teachers. Even the principal. So when Alton’s maps are stolen from his locker, there’s serious trouble on the horizon...and he’ll need some serious cartographic skills to escape it. From “a genius of gentle, high-concept tales set in suburban middle schools” (The New York Times), this stand-alone story is off the charts.
